Why is Vaping Safer Than Cigarettes?

There's no magic "safe" option for inhaling foreign substances. But, if you're already a smoker and considering switching, vaping might be a less harmful alternative.

Chemicals

Cigarettes contain over 7,000 chemicals that can cause cancer. But, vaping liquids generally do not have that many harmful substances.

Cigarette Smoke vs Vape Smoke

- **No Tar or Carbon Monoxide:** Cigarette smoke has these two nasty components: lung damage and heart disease. Vaping typically avoids these, potentially reducing the risk of these conditions.
- **Nicotine:** Both cigarettes and vapes contain nicotine, which is highly addictive and can harm brain development in young people. But, the amount of nicotine in vapes can be controlled, and some vape liquids are nicotine-free.

Where to Buy the Best Vapes in UAE?

Vape's popularity has several reasons. Do you look for a vape shop near you in UAE? Vape Dubai King is the number one supplier of globally renowned vapes in every corner of the UAE.

You will get large discounts and on-time delivery from Vape Dubai King. Vape kits from more than 10 brands are available in the collection! We have vapes of all sizes, puff counts, and prices! So, order and get special discounts for special days!
